

FastTrack Invoice

Ariba Supplier Programs

Increased visibility for suppliers with proven electronic invoice capabilities

FastTrack Invoice

Suppliers have made significant investments in their eBusiness sales channel and are supporting an increasing number of buyers through the Ariba Supplier Network™. As Ariba continues to lead and innovate across the Spend Management Value Chain, buyers continue to ask for suppliers that demonstrate full integration with the Ariba Supplier Network. This is particularly true for buyers looking to do electronic invoicing.

In response to this demand, Ariba is introducing the FastTrack Invoice program. The Ariba FastTrack Invoice program is designed to identify and showcase suppliers who have demonstrated the ability to send electronic invoices. This program helps buyers find suppliers who are already sending invoices across the Ariba Supplier Network in order to speed integration and ROI of their spend management initiative.

FastTrack Invoice Requirements

To achieve FastTrack Invoice status, suppliers need to send an invoice through the Ariba Supplier Network via cXML, EDI or PO-Flip™. Once Ariba validates that an invoice has been successfully processed, the supplier is eligible to become FastTrack Invoice qualified. The requirements are:

1. The supplier must be currently invoicing via the Ariba Supplier Network with at least one (1) Ariba customer.
2. FastTrack Invoice suppliers must provide information to buyers to facilitate implementation of eInvoicing on the Ariba Supplier Network and agree to give high priority and promptly respond to buyers' requests for implementation. Suppliers must be able to provide electronic invoices to new buyers within a targeted thirty (30) days of receiving the buyers' request.
3. The supplier must complete and maintain all profile information contained on the Ariba Supplier Network.

To apply for the FastTrack Invoice Program contact your Inside Supplier Account Manager at (866) 583-5988 today!

FastTrack Invoice program offers great benefits free of charge.

Supplier Benefits:

- Earn new business with Ariba Invoice and Payment customers
