In summary, here are three steps you can take to achieve world-class results.

1. **Procure-to-Pay**
   - **Alignment**: Aligning the KPIs of Procurement and Finance is crucial. Procurement needs to understand the impact on other departments as well as the business as a whole.
   - **Automation**: Automating the collection of invoice data and feeding it back to your Sourcing-Procurement team.
   - **Rationalization**: Rationalizing the process to ensure that it is optimized and efficient.

2. **Source-to-Settle**
   - **Invoicing**: Ensure that all invoices are processed accurately and on time.
   - **Dispute Resolution**: Resolve disputes quickly and efficiently to minimize the cost of delays.
   - **Contract Management**: Manage contracts efficiently to ensure that they are correctly aligned with your business needs.

3. **Automatic Invoice Reconciliation**
   - **Automation**: Use automatic invoice reconciliation to ensure that all invoices are processed accurately and on time.
   - **Cost Savings**: Reduce the cost of invoice processing by automating the process.
   - **Efficiency**: Increase efficiency by reducing the time spent on manual invoice processing.

By following these steps, you can achieve world-class results in your Procure-to-Pay and Source-to-Settle processes.
