Buying is a snap!
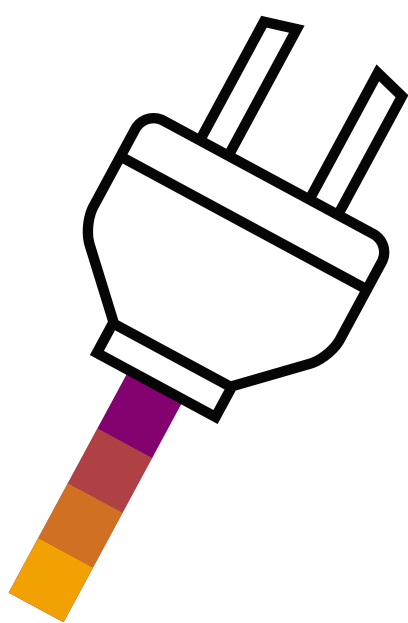

The SAP® Ariba® Snap program: an easy-to-deploy, easy-to-administer, and easy-to-adopt way for midsize companies to control spending.

3 actions: ready, set, buy
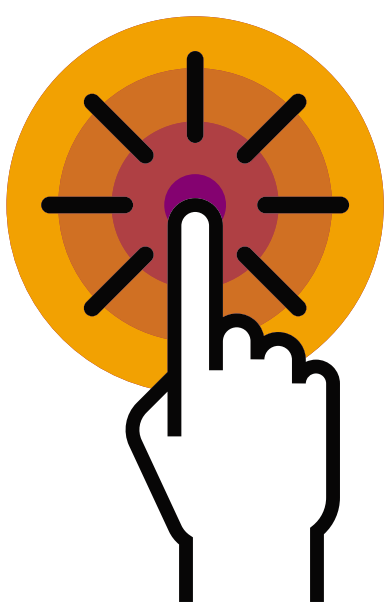

Plug it in and start buying.

- Preconfigured spending categories that are used most in your industry
- Built-in best-practice workflows that increase efficiency and reduce cost
- Consumer-simple buying for your employees

>USD 2 trillion transacted each year

More than 3.6 million companies are connected on the world's largest business-to-business network.

- Easy, digital, and free onboarding of new suppliers
- Marketplace of proven suppliers that you can buy from on day one
- Automatically updated, accurate, and centralized supplier information

1 system

Packaged and priced to fit your business and designed to scale as you grow.

- Total control and visibility into your company's spend
- Automated accounts payable reconciliation
- Better cash flow and working capital management
